

CAREER

WORK WITH US

WHAT VALUES ARE IMPORTANT TO US AS INDEPENDENT ADVISORS IN RENEWABLE ENERGIES?

Everyone at our company is excited when it comes to the expansion of PV systems and electricity storage. Our international and small team (Italian and German so far) tries to shape the future of renewable energies together with our clients.

How we do it? - We advise our clients and manage/coordinate the technical tasks for our clients. So that they can implement their ideas achieving the construction of sustainable projects with our knowledge, drive, motivation and network. Always according to the motto:

"You chase the opportunities - we help you to succeed."

We are still a fairly young and small consulting company, but we already serve some of the largest clients in the energy markets in Europe and we are happy to expand the team to serve all requests. And this is exactly your opportunity to provide our clients with your know-how and experience and to work on diverse and interesting projects within Europe. Become part of our team and have fun together giving our clients the best possible support and making an impact where the energy transition is happening on a large scale.

TECHNICAL MANAGER / COORDINATOR / CONSULTANT (M/F/D) IN RENEWABLE ENERGIES

CHALLENGING TASKS
(utility size projects) as a
freelance technical manager/
coordinator/consultant

**WORKING FOR A SELECTED
GROUP OF CLIENTS**
in one or more teams

HIGH FLEXIBILITY
in working time and place of residence,
up to 100% home office with project-
related travel (2-10 days per month,
